CARIBOO'S REDUCTION WORKS.

The Location of the Proposed Works Discussed in Public Meeting.

Barkerville, June 21—At a meeting called by the members of the district for the purpose of taking into consideration the location of the proposed government reduction works, and held at the Theatre Royal, June 19th, Mr. James Innes was elected chairman and Arch. Dods, Sec.

Mr. Innes, in a few well chosen words, introduced the subject and said as the members were present he would call on Mr. Mason, who read a telegram to the effect that a deputation of Victoria citizens had waited on the government and represented that it would be for the best interests of the district that the chlorination works should be placed at Island Mountain and their plant utilized. He, Mr. Mason and his colleague, Mr. Cowan, had been before the standing committee on mines and then brought before the Assembly a resolution asking the government to set aside a sum for the erection of testing works. Mr. Mason held that the government were friends of the district, as had been proved the last two sessions, and he and his colleague felt that a question of such importance should be submitted to the electors themselves; hence the meeting. He refrained from giving his own opinion, considering that the public meeting was the best authority to decide such a question.

Mr. Cowan was called on and said that the government having seen the working of the loan and bonus system were in favor of assisting by erecting reduction chlorination works, and the money voted last session enabled them to pass a vote of $32,000 for such a work. Mr. Martin would now have been in San Francisco purchasing the necessary plant had it not been for the influence of the Victoria deputation being in favor of utilizing the mill of the Island Mountain Co. He considered that the members had carried out the wishes of their constituents in getting such assistance and it would be better in the public interests that no private company should have anything to do with it. (Applause.)

Mr. McDermott had a resolution to offer. He had taken a lively interest in the matter and was afraid that the petition forwarded might lead to the works being put up in connection with some private works, which he considered would be disastrous to the public interests, etc. He moved the following resolution:

Whereas, in compliance with numerously signed petitions from different parts of the province the government at its last session made a liberal appropriation for the erection of a test mill in Cariboo, to be operated in connection with the government assay office, for the benefit of the general public, and—

Whereas, certain parties are endeavoring to get control of the same and have it connected with a private mining company.

Therefore, be it resolved, that this meeting strongly protests against having the works in any way connected with, or subject to any private enterprise as we do not believe the public interests would be served thereby, but that the main object of your petitioners would be defeated; And be it further resolved that it is the opinion of this meeting that the said works should be erected at some point on the wagon road, on such a site as shall be selected by the party authorized to do so by the Government; and that said works be under the immediate supervision of some person appointed by the Government who shall have absolute control of the same. And be it further

Resolved, That our representatives be, and are hereby requested, to use their utmost endeavors to have the same carried out as originally intended, which was whether the works should be erected as indicated in the petition.

Dr. Watt would like to have heard the proposition of the Island Mountain Co.

Mr. J. Pinkerton would object to the terms of the resolution restricting the site to be within two miles of Barkerville, and wished the location to be left an open question.

Dr. Watt could see several advantages connected with the scheme if the Island Mountain Co.'s works were taken over by the Government, and he was anxious to hear the proposals of the company.

Mr. Cowan explained the proposal so far as he understood it.

The resolution was then put and carried; only one dissenting vote being heard in a tolerably large gathering, Lightning, Mosquito and Grouse Creeks and the adjoining gulches being all pretty well represented.

A resolution tendering the thanks of the meeting to the members and through them to the Government was passed unanimously. A vote of thanks to the Chairman and Secretary closed the meeting.

THE S. & O. R.

The Bonus from the Dominion Fully Assured.

The item from the Toronto *Empire* in respect to the Dominion bonus to the Shuswap & Okanagan Railway, was not published by that journal on good authority, as it proves, we are glad to say, to be untrue. Mr. Lumby to-day received the following telegram from Ottawa, which finally settles the question about the passage of an order-in-council granting the bonus:

OTTAWA, June 28—"Copy of order-in-council re subsidy to the Shuswap & Okanagan Railway goes by to-day's mail.
HECTOR L. LANGEVIN."

Jubilee Mountain.

THE TIMES correspondent writing from Jubilee Mountain under date of the 20th inst., says: Since my last communication I have become domiciled in a mining camp and am busily engaged in developing a mineral claim and killing that interesting pest—the mosquito. Mineral development is being vigorously pushed forward on Jubilee Mountain; loud reports of explosives follow each other in rapid succession along the backbone of the Mountain its entire length, while answering blasts of giant powder echoes from the Spillumacheen Mountain and Bate Mountain, where enthusiastic miners are vigorously prospecting there numerous valuable locations. Doubtless these three twin mountains will form a gigantic mining camp, as Jubilee Mountain alone is four miles long and can be truly termed a mountain of ore. Within a radius of ten miles from the unpretentious shanty of your correspondent there are hundreds of mineral locations, destined (many of them) to become of vast value, if surface indications are any criterion of the wealth entombed in the rocky vaults below.

A few days ago, A. W. Vowel, Gold Commissioner of Eastern Kootenay, visited the camp in the Mountains, and, after viewing the prospects, was deeply impressed with the magnitude and quality of the indications, and hinted at the possibility of a town site being surveyed on the Columbia River, at the base of the Mountain, in the interest of the Provincial Government.

While drawing the attention of your readers to this section of Eastern Kootenay as a field for the investment of capital, I beg to say that it is only one of the many localities where unmistakable evidences of valuable deposits are sufficient to tempt the most cautious capitalists to invest.

Notwithstanding the fact that many mineral claims will be worked this summer in the Kicking Horse Valley, the North and Middle Fork of the Spillumacheen, the South Fork of Spillumacheen, Fifteen Mile Creek, Tunnel Mountain, Toby Creek, and other places will also be worked.

—The Yosemite will leave for Vancouver at 1 a. m. on Monday next, arriving at the terminal city at 7 o'clock. She will leave Vancouver on the return trip at 2.30 p. m. on Monday. Visitors will thus have seven and a half hours in Vancouver.

—The Yosemite left Vancouver at 2 o'clock this afternoon, for Victoria, connecting with all trains.

CHRISTIANITY AND BULLETS.

Atlanta, Ga., June 28—Sam Alexander [colored] was shot dead last night in Walton County. There was a church festival when a quarrel arose as to who had done the most work for the church. The combatants retired to a distance of 150 yards and fired several shots at each other. Alexander was killed and another man wounded. Inquest was held in the church. Charles Cooper was decided to be the murderer and is now in jail.

RECEPTION OF BLAINE.

Washington, June 28—The following is announced to-day: There is a movement on foot to give Blaine the most stupendous reception ever presented to an American upon his return from Europe. The programme contemplates running excursion trains from all parts of the country to New York. Steamers will meet him and a procession of Harrison and Morton clubs will conduct him home. According to present arrangements Blaine will remain in New York two days. He will then go to Augusta and remain about two weeks. At the expiration of that time he will make an opening speech at Augusta, then go to New York, Philadelphia, Pittsburg and Chicago. Tours are being arranged from the latter city through the Northwestern States and as far west as Portland, Oregon. He will afterwards go to San Francisco and return east through Colorado, Kansas, Nebraska, Iowa, Indiana and Ohio.

PREACHER LYNCHED.

Yellville, Ark., June 28—Sam Stokely, a colored preacher, was lynched last night. A note pinned on his breast stated he had taken too many liberties with certain members of his flock.

MURDERER CAUGHT.

PERSONAL.

Miss Beaven, daughter of Mr C F Beaven, Pandora avenue, accompanied by Miss Holding, arrived from the east via the C P R last evening.

Mr W H Dorman has been appointed to the position of Assistant Inspector for the British Columbia postal division.

Mr Alex Begg, now of Seattle, formerly of Winnipeg, and for some years in charge of the C P R immigration department, London, England, came over from the Sound last night. He is editor of the Puget Sound *Gazetteer*, a live monthly publication devoted to the interests of Seattle in particular and the Sound country generally. His family are residing in Victoria for the summer months.

Mr and Mrs Chas Todd are arranging to leave by the Boscowitz to-morrow evening for Metlakahtla where they will reside in future. Miss Marrion Downey accompanies them. Mr. Todd is bringing lumber north wherewith to erect an industrial school for the Indians under his agency. Their many friends will wish Mr and Mrs Todd a safe journey and prosperity in their new home in the far north.

St. Joseph's Hospital.

When completed according to the plans prepared by Mr. John Teague, St. Joseph's Hospital, in this city, will be one of the most complete and perfect buildings of the kind on the coast. In addition to the extensions to be made, it is proposed to overhaul the present building, change the wards and dormitories, and improve the ventilation and heating systems. In short, make it almost a new building. Every known modern improvement will be introduced. Nothing has been spared in the way of expense or trouble to make this institution inviting and comfortable as a place for those in search of good health, or about to be treated for ailments from which they are suffering. St. Joseph's will continue to be an institution in which Victorians will always take an interest.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

TOAD MOUNTAIN MINES.

Trip to Lower Kootenay—What a Missionary Saw.

Leaving Messrs. Galbraith's ferry, Monday, I reached the Kootenay river at the boundary on Thursday morning, having called on Colonel Baker, M.P.P., at Cranbrook, and spent three days on the Moyia and Goat river trail. I arrived here in time to miss the boat which had gone down the day before. Messrs. Rykert and McLaughlin gave me a good idea of the prospects of this district on either side of the line. It had been reported that there was a great number of men at the new mines, but I learned that there were not so many as I expected. Taking the boat Idaho, on Sunday evening, we went down toward the mouth of the river and camped on the bank for the night as the boat had not sleeping accommodation for all the fourteen passengers and crew. The river was swollen after the warm weather and flooded most of the low land along the banks. We started early in the morning and had a pleasant trip down the lake, which is a beautiful sheet of water. About 10 o'clock we reached the entrance of the outlet where we stopped for a time to get some fish from the Indians and have breakfast. Up the lake about ten miles is the old mine, which still gives good prospects. Across the lake are the hot springs, at which I am told there is good bathing. We steamed down the bay in a few hours to the landing for the new mine. The people call the place Salisbury and have high hopes of it being in a few years a flourishing mining town. It consists at present of a few wooden houses, kept by Mr Bunting, a store by Divine & Co., a fine large tent in which Mr. Wood, late of Woodman, gives good meals and very comfortable beds, and about twenty-five tents belonging to prospectors. It would be difficult to tell how many people there are in the town, as the men are coming and going every day, but as near as I can learn there are about one hundred, counting those who are out on the surrounding mountains. These, with those at the old mines and hot spring, and from the mouth of the Kootenay up the trail, which is being made to the mines, will make about one hundred and fifty in all. At the landing I met Mr. Anderson, the Recorder, who kindly invited me to remain with him during my sojourn at Salisbury. We had a service on Monday afternoon in Mr. Wood's tent, which was the first meeting for the public worship of God in this place. I trust that in a few years it may be a prosperous change, enjoying gospel ordinances. Taking next day, Tuesday, for rest and seeing the town, I started up Mineral Mountain on Wednesday to see the claims for myself. Crossing Cottonwood Smith Creek, I came to a timber claim, taken by Messrs. Buchanan & McDonald, who I am told, intend to build a saw mill and supply the place with lumber. After some hard climbing I crossed Give-out Creek and met Mr. Cobaugh near to the spot where he found gold a few days before. He showed me his claim and gave me some good specimens of gold ore in which the gold flakes were visible. This promises to be a rich gold mine, even the soil around the ore shows the gold when panned. In a short time I came to the region of snow, a short way below the Kootenay Bonanza Company's establishment. Mr. Hall, one of the members of the company took me up to the Silver King and Bonanza claims, both of which present a splendid appearance. I took specimens at the different openings and am told they are of a very high class of silver and copper ores. Indeed the whole face of the mountain seems to be covered with this lead and it is thought to extend to a good depth. Other claims are taken up in different directions, all showing good prospects. I also received good specimens of gold quartz from the Golden King claim, owned by Mr. King and others, over towards Cottonwood Smith Creek from the White Claim of Buchanan and partner. I cannot begin to enumerate the other claims which are taken up, some one hundred and fifty in all. What is needed, if I may venture to pass my humble opinion, is better means of carrying out the ore and plenty of capital to make this a flourishing mining center. Time and space does not permit me to write more about this very interesting trip. I returned the following week to the Upper Kootenay by the way I went, very well satisfied with my first trip to a mining camp. Should this reach my kind friends in Lower Kootenay I again thank them sincerely for their kindness to me during my stay with them. I would mention the names of Mr. and Mrs. Rykert, of the Custom House, at the boundary, Mr. McLaughlin, on the other side of the line, Mr. and Mrs. Wood, Mr. Anderson, of Salisbury, Messrs Fry and Thompson, of the steamer Idaho, as worthy of special mention. May they all be blessed and prospered.

J. A. McDONALD,
Missionary.

Marine Notes.

The steamer Idaho was taken off the dry dock on June 23rd. She will sail from San Francisco for Alaska on July 6th.

Steamer Alaskan returned to the Victoria-Seattle route last evening. Whilst making the wharf in this city the machinery did not work well and the steamer carried away a portion of Messrs. Turner, Beeton & Co.'s wharf.

H. M. S. Wild Swan sailed for the south this morning.

Ships T. F. Oakes and Lancaster Castle are loading coal at Nanaimo.

Fine Business Premises.

The extensive warehouse of Messrs. Welch, Rithet & Co., Wharf street, is to be greatly enlarged. The present front is to be taken out entirely; the ground floors extended and another storey to be added to the entire building. The front will consist entirely of the best Belgian plate glass and iron pillars. An hydraulic hoist is also to be introduced into the building. When completed according to the plans prepared by Mr. John Teague, the premises will be equal to any on the coast, and a vast improvement on the present premises, which has become entirely too small for the firm's requirements. Preparations have already been begun to carry out these improvements.

Laid at Rest.

The funeral of the late John Harris took place from the residence, Fort street, at 2 p. m. to-day. The mournful *cortege* proceeded to R. C. pro-cathedral where the funeral services were conducted by Rt. Rev. Father Jonckeau. From thence the remains were conveyed to Ross Bay cemetery and were followed by a large number of sorrowing friends. The casket was covered with wreaths and flowers. The pall-bearers were ex-Mayor Fell, F Campbell, S J King, T Goodacre, J G Taylor, W G Bowman, J J Austin and W Grimm.

VICTORIA DISTRICT.

The meeting at the Agricultural Hall, South Saanich, to night, will close the oratorical part of the campaign in Victoria District. Both candidates have received sufficient promises to ensure their election if it were possible for these pledges to be kept, which of course it is not. It now only remains for the friends of Mr. McILMOYL to use every legitimate means to place him at the head of the poll, and with a decisive majority. They know that he is the better qualified man—that his knowledge of public affairs and his ability to discuss and inaugurate legislation gives him a great advantage over his opponent, whose sole excuse for being in the field is that he is the government candidate. Mr. McILMOYL'S friends rest his case upon his record as a politician, his integrity of character, his independence of party wire-pullers and machine politicians, his honesty of purpose, and his undoubted ability. Mr. TOLMIE'S friends depend upon the corrupt argument that their man, having pledged a servile support, will be more successful in procuring money grants from a Government which at the same time they profess to believe is influenced only by honest motives and accustomed to act with impartiality in the dispensation of public patronage. That is the position fairly stated. We await the issue with full confidence in the judgment of the electors. Under the ballot they can vote according to their consciences, and if every voter follows his private judgment, the return of Mr. McILMOYL is the only result that is possible.

NO MORE OFFICE-SEEKERS.

One does not need to enquire whether our versatile and ambitious friend, Mr. D. W. HIGGINS, M. P. P., (and also President of the Agricultural Society) is the writer of the letter signed "Liberal Conservative," which appeared in the Colonist of Wednesday morning, before endorsing the sentiments to which its author gives utterance. Some good can come out of Nazareth, and even Mr. H. may give expression once in a while to sound doctrine and under the guise of a convenient *nom de plume*, counsel wisdom and righteousness in public affairs. However, excepting as indicating the animus of the writer, it does not matter very much who he is. It is sufficient to know that he has struck the right key, and has put in terse and effective language the views of nine-tenths of the electors of Victoria. Political life, with those who, as a general thing, aspire to parliamentary honors, is treated as a mere stepping stone to comfortable sinecures for themselves, and during their terms as representatives all their efforts are devoted to accomplishing this one object. Under such circumstances, and with such self-seeking representatives, it is of course out of the question to suppose that public questions, it matters not how important they may be, will be discussed or voted upon intelligently and disinterestedly. As a prospective Collector of Customs, or Senator, or Lieutenant-Governor—we scarcely know to what his vaulting ambition will yet lead him—Mr. BAKER dare not follow his judgment if it leads him in opposition to the men who alone can gratify his greed for office. And as it is with Mr. BAKER, so it was with Mr SHAKESPEARE, and so it will be with every other needy adventurer who is entrusted with the suffrages of the people. We use the word "needy" advisedly, and in the sense that the gentlemen concerned have personal ends to gain. The motto of the electors hereafter must be "no more office-seekers need apply."

England puts no tariff on imports but she uses protection in behalf of the carrying trade and the merchant marine. From 1770 to 1830 England spent $25,000,000 in foreign mail services. In 1830 she began to increase the expenditure, which grew so rapidly after the advent of free trade that in 1885 the amount spent by England in protecting and developing the merchant marine by mail subsidies had reached the enormous sum of $273,563,000.

At the Hudson Bay Company's meeting in London on the 26th inst., Mr. Eden Colville, the chairman, expressed his regret that the fall in the prices of furs had so decreased the profits as to prevent the payment of a dividend for the past year. He believed that fashion would veer round and good prices return. The prospects of the Northwest were bright, and there was every promise of a gradual and satisfactory realization of the Company's landed property. The report was adopted.

Mining News from Cariboo.

One Barkerville correspondent writes that it may interest some of your readers to know how matters are progressing at that half way house to the north pole.

An abortive attempt was made last week to pass a resolution, having for its object the placing of the proposed government reduction works at Island Mountain. A fair-sized gathering took place to hear what was to be said, but when the subject was fully explained the meeting did not seem to approve of the scheme, and the final explanation seemed like the last straw on the back of the camel for the meeting began to crowd to the door and by the time the speaker had finished the broad backs of the miners loomed ominously at the door until the chairman and secretary and a corporal's guard were left. Of course no resolution was put.

The Waverly Co., under the superintendence of Mr. J. Pomeroy, is making a good show this year, having abundance of water, and having reached the rim, will, in all probability, wash up this year more than usual.

The Nason Co., on Antler creek, having lost their foreman, Mr. G. A Dow, who has gone to run the Perry Creek Works, Kootenay, Mr. O. O'Neill was elected in his place and hopes are entertained that this summer will solve the problem that has for so many years baffled the best miners and patient shareholders. There seems hardly a doubt but that a tunnel can be run across the channel now with their present appliances

The "Cresswell and Old North" (Hendricks') have struck an old channel on Nugget Gulch, that certainly looks splendid, and of which they entertain high hopes; but have not yet bottomed it.

The Hydraulics on Williams Creek look well since opening out, and promise an increased yield. The Eye-Opener looks well, as does also the Aurora. Both are sending off a large quantity of gravel and it would not be much of a surprise if they both cleaned up much more than they have for years. The Black Jack looks well, as they have seen more gold than for some years.

The Mosquito Creek claims, so far as heard from, show more gold than usual, though the water is giving out.

The quartz interest is taking a new lease of life, and probably the darkest day has passed. With a test mill established, prospectors will be able to find out the value of their various locations, and renewed activity may be expected.

Mason's mill, on the Pomeroy ledge has been operating for some time, but they have not cleaned up yet. This is the ledge from which some specimens of gold were obtained during the winter.

The Black Jack Co. have their mill ready to move and machinery on the ground, and will erect it shortly, and prove how much free gold the ore contains, saying the sulphurets to be treated by the proposed chlorinating works.

CITY COUNCIL.

Petition Read to Cancel Mr. Fee's License--No Aid to Agriculture

At 8:20 o'clock last evening His Worship Mayor Grant called the meeting of the Board of Aldermen to order. Present, Alds. Powell, Coughlan, Kelly, Styles, Vigelius, Harris and Penwill.

Minutes of previous meeting read and on motion adopted.

COMMUNICATIONS.

From L. C. Marshall asking whether a bonus would be granted for the erection of a paint manufactory. The erection of the works would cost $10,000.

His Worship said he was interviewed by the young gentlemen regarding the erection of a paint manufactory. He was told by His Worship that it depended a great deal on the number of men employed and the cost of erecting the works.

The communication was referred to the bonus committee.

From George Collins stating that he has been connected with the water mains for over three years and can never get an adequate supply. He petitioned for a better supply by means of a larger main.

Ald. Coughlan moved that the communication be received and filed and Mr. Collins notified that the corporation intend to place a larger main on the street as soon as possible. Seconded by Ald. Penwill and carried.

Ald. Styles moved that the communication be referred to the Water Committee and Water Commissioner with power to act. Seconded by Ald. Harris and lost.

From B. H. T. Drake, regarding a drain which overflowed on the south side of Belcher street. Referred to the Street Committee with power to act.

From Messrs. Young Bros., calling attention to the inequality of the water rates. The New England Bakery is charged $6 per month, whilst others in the neighborhood receive water for $2 per month. The communication was referred to the Water Committee and Commissioner with power to act.

From A. J. Smith, President of St. Andrew's and Caledonian Society, asking for the use of Jumbo to roll their picnic grounds and to drive the electric light machinery on July 4th. Granted.

From S. Sheon, regarding an awning which the City Surveyor had reported as too low. Mr. Sheon said his awning was over nine feet high.

Ald. Powell said he did not think the awning could be removed. A number of business men had awnings which are not the regulation height.

Ald. Coughlan moved that the communication be received and filed. His object in making the motion was to dispose of the matter. There is not one awning in the city which complies with the by-law.

A motion to refer the matter to the Street Committee and City Surveyor to report was adopted.

From Fisher & Wilson, informing the Council that Mr. W. G. Cameron's building is completed and asking that the sidewalk be laid in front of same on Johnson street. Received and filed.

From W. Irvine, asking permission to purchase a quantity of gravel. Received and Mr. Irvine notified that the Council had no gravel for sale.

From T. Trounce, for street lines of lot 851, Pandora and Quadra streets. Ordered to be furnished.

From R. Carr, calling attention to carelessness of corporation workmen on Simcoe street through allowing rock to fall in his garden. Referred to Street Committee.

From D. W. Higgins, informing the Council that an adjourned meeting of the Agricultural Society will be held on Saturday next. Lord Stanley will most likely be in this city next October, and would no doubt be asked to open the exhibition. In order to make proper provision for the forthcoming event he would like the Council to give substantial aid to further the show.

Ald. Styles said a report was handed in by a committee stating that the funds of the city would not permit of a donation

His Worship would like to see a substantial sum donated to this worthy object, but the city is not in a position at present to assist the Agricultural Society on account of lack of funds.

Ald Vigelius would also like to assist the Agricultural Society. The Council is in such a position that no funds can be donated either to the Jubilee Hospital or Agricultural Society. The Alderman moved that the communication be referred again to the Finance Committee to devise means to raise a sum for this purpose.

Ald Coughlan said it was useless to refer the matter again to a committee. The corporation could not see its way clear to donate a sum to the worthy object and it would only be a waste of time keeping the Agricultural Society in doubt on this question.

A motion to inform the Agricultural Society that the city cannot assist them was carried.

From 159 residents of North Park, Pioneer and Quadra streets protesting against issuing of a license to Mr. Fee.

Ald Coughlan moved, seconded by Ald Kelly, That the communication be received and referred to the Board of Magistrates with the intimation that the Council has no power. Carried.

His Worship said his action whilst on the Bench was criticised. It was said that he should vacate the chair. The motion to grant the license was carried by a vote of two to one, and His Worship was not called on to give the casting vote. The Board was informed by His Worship that the license was refused at a former meeting of the Licensing Court. The business of the Board was not completed when Mr. Fee's license was granted, and it would not be proper for the chairman to leave the meeting, to the detriment of the business of other citizens.

Ald Penwill Has the Council power to revoke licenses granted by the licensing bench?

His Worship—No. The Council has no power, and the Licensing Court cannot revoke the license excepting for misconduct. It is no doubt a pity that the wishes of the petitioners cannot be granted.

From Guttman & Frank, for a supply of water at the Lion brewery. Referred to the Water Committee.

From Mrs. M. Hodges asking for compensation for damage caused by a defective main. Referred to the Water Committee and Water Commissioner.

From T. Russell, municipal collector, asking whether a license shall be renewed for which a Chinese pawnbroker applied.

Ald. Coughlan moved that the collector be instructed to carry out the provisions of the act passed last session refusing to grant or renew pawnbroker's licenses to Chinese. Seconded by Ald. Harris and carried.

NOTICE OF MOTION.

Ald. Penwill introduced the Bank Credit by-law, which was read a first time.

Ald. Powell asked leave to introduce a by-law to raise a loan of $125,000. Laid over.

REPORTS.

From the Street Committee recommending the laying of a box drain on Fort street from Mosq street. Report adopted.

MISCELLANEOUS.

Ald. Powell said he was gratified to hear that the 12-inch main was filled with water to the satisfaction of residents. The Alderman said he would like to have the pipes laid in James Bay Ward.

His Worship said the Queen's Birthday Celebration Committee required about $200 to clear off the indebtedness. A motion to pay the amount from the funds of the Corporation was carried.

Meeting then adjourned.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of tubercle germs into the system and when these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

AYER'S PILLS

Sugar Coated Cathartic

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightnay, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them, with good effect, in cases of Rheumatism and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Alhatta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. G. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Esling, Richmond, Va. ††

H. G. & M. WALKER, my20 D&W 3m Spencer's Arcade

UNITED STATES NEWS.

THE READY REVOLVER.

Helena, Mon., June 26—Word comes from the Alhambra Hot Springs of a shooting affray on Sunday. A Swedish teamster became involved in a drunken quarrel with a smaller man in a saloon and raised a chair to strike his adversary when Frank Walker, bartender, fearing the smaller man would be killed, pulled his revolver and fired at the Swede. The bullet missed its aim and passed through an open door, striking a man named Reeves and inflicting a serious wound. Walker then fired again and this time hit the Swede who staggered to the front door and fell dead. Walker was arrested.

THE CAUSE—UNREQUITED LOVE.

New York, June 26—Joseph Sherford, employed in a boarding house at 137 West 34th street, shot and instantly killed Rose Sheridan, cook in the same house this morning. Unrequited love is supposed to be the cause.

BOILER EXPLOSION.

Effingham, Ill., June 26—The boiler at Hognes mills exploded last night. The engineer and one man were instantly killed. Three others were fatally injured.

EFFECT OF THE BOOM.

Ashland, Or., June 27—John Drummond, who came here recently from Southern California, and who, it is supposed, lost considerable money in the San Diego boom, suicided this morning, shooting himself in the head with a revolver.

KILLED BY LIGHTNING.

Omaha, June 27—Last night while Robert Foster and Swartzman were on their way home from Culbertson, in Hitchcock county, during the storm, they were both killed by lightning.

KILLED HIS WIFE.

Butte, Mon., June 27—At Jefferson, 15 miles from here, J. F. Cartwright, a wood hauler, killed his wife yesterday by striking her on the head with an axe. They had been quarreling, and Cartwright claims his wife struck him with a pistol, when he threw an axe at and killed her instantly.

THE GREAT FLOOD.

City of Mexico, June 26—Telegraphic communication, which was interrupted for several days by floods, has been restored. Particulars of the terrible disaster on the line of the Mexican Central Railroad, particularly at Leon and Silao, were obtained during the past ten days. The table lands between here and Zacatecas have been visited by unprecedented rains. Every mountain and rivulet along the Central Railroad for more than 200 miles has been converted into a destructive torrent and the valleys present the appearance of lakes. Many cities and towns have been inundated and Leon Silao have been partially destroyed.

A YOUNG DESPERADO.

Bonham, Texas, June 27—Last night officers arrested on the Red River, twenty-five miles northeast of Bonham, a 12 year-old boy named Sam Crump for attempting to kill his stepfather named Duncan, for severely injuring his mother. Duncan was beating the boy's mother; the boy rushed at him with a scythe, fatally cutting him. During the fight he struck his mother twice with the scythe blade, one blow cutting a long gash in her head, the other blow almost severing her right arm.

THE NORTHWEST CHAMPIONSHIP.

Minneapolis, June 27—The glove contest between Patsy Cardiff and Pat Killen, each claiming to be the champion heavy weight of the Northwest, drew a 25,000 audience to the Washington rink last night. The fight was to be fifteen rounds; Marquis of Queensbury rules; two ounce gloves. The winner to get 75 and the loser 25 per cent. of the gate receipts, and the winner to be declared the champion of the Northwest. Cardiff weighed 178 lbs, and Killen 190 lbs. Time called at 9:37. As the men advanced to shake hands they showed splendid muscular development. Cardiff led and pushed the fighting until near the end of the 4th round, when a lucky blow from Killen's right laid him on the ground, partly dazed. He tried to rise but could not within the required time of ten seconds. The fight was then decided for Killen. The fight, which was a plucky one, lasted a few seconds less than fifteen minutes.

WASHINGTON NEWS.

Washington, June 27—The President has allowed the act to authorize the Paris, Choctaw and Little Rock Railway Company to construct and operate a railway, telegraph and telephone line through the Indian Territory, to become law without his approval.

The U. S. steamer Swatara arrived at the Washington navy yard at noon today, from Norfolk, for the purpose of taking Gen. Sheridan to Norquitt, Mass.

President Cleveland, Secretaries Bayard and Vilas, Senator-elect Barbour and Representative O'Farrell arrived at the University of Virginia to-day to attend the exercises of closing day at that institution.

When Mills called up the tariff bill in the house today Kelly, of Pennsylvania, suggested on his individual responsibility, as a means of expediting the adjournment that the bill be laid aside till next session, its fate then to depend upon the result of the November elections and that the surplus be kept down by the entire repeal of the tobacco tax. Mills rejected the suggestion and made a counter proposal that the representatives should fix an early day for taking a final vote on the bill.

AN AGGRESSIVE CAMPAIGN.

Syracuse, June 27—The Prohibition State Convention this afternoon adopted its platform and decided upon an aggressive campaign.

MEXICO'S ELECTIONS.

City of Mexico, June 27—On Monday the elections for electors who are to choose a President and Members of Congress a week from next Sunday, were held throughout the country. Returns now in show that there was no opposition worth mentioning to Gen. Diaz and the ticket of the administration party.

THE FISHERIES.

Progress Being Made by the Eastern Americans on Puget Sound.

A correspondent writing to the Portland *Oregonian* from Port Townsend, relative to the Gloucester fishermen who lately arrived in these waters, says they have been very successful so far. Before their arrival fishing was carried on by Indians and others who could not be depended on, as they only fished when it suited their convenience, and then only for salmon, in order to obtain money enough to go on a drunk with, and then laid off till this money was exhausted. Since the arrival of the Gloucester men, however, fishing has been carried on in a systematic manner, and a large supply of fish—halibut, more particularly—is received here every day. The Gloucester and Cape Ann markets are large establishments, recently started. Beside supplying the local market, in which the demand for food fish, both fresh, salted or smoked, is rapidly increasing, they also ship from here to outside points, both on the coast and through the interior and the eastern states many tons of fish daily. The halibut shipped from here to the east is so popular that large orders are being received by the markets here daily and the proprietors of the same are making preparations to enlarge their field of operations and will soon be able to furnish any amount of fish required. The schooner Mollie Adams has caught halibut off the Cape in large quantities and has them packed on board in ice for shipment to eastern points. In one day 32,000 lbs. were sent to Minneapolis. Other vessels have also been successful. The daily arrivals in Port Townsend now averages from 50,000 to 70,000 lbs. It is now proposed to start a curing factory at the port of entry.

LEGAL TOUTERS.

To The Editor of The Times:

Sir:—A stranger soon learns that the reputation of the legal profession in British Columbia does not stand very high. There may be reasons sufficient to account for the marked contrast in this regard between the province and other British communities, although they are not apparent. It has, however been a matter of much astonishment to me to find that practitioners not only ask for business, like cigar drummers, but speak in disparagement of other lawyers, and prate of their personal influence with judges and juries. No professional body given to such practices can hope to deserve the title of "liberal," or to command the respect of the community.

MARVELOUS WORKS.

People Cured by the Wonderful Electro-Magnetic System; as Practiced by Drs Darrin.

Marvelous and miracle are synonymous terms. Miracles are not worked in the prosaic times. It does sound marvelous, however, and it seems like a miracle when the fact is put before you of the wonderful cures as performed by the Drs. Darrin at the International Hotel, Cherry Street, Seattle, W. T.

Many columns of this paper could be filled with accounts of cures performed by the Drs. Darrin, substantiated by eulogistic testimonials from grateful patients.

Attention is called to a few of the following:

EXTRACTS OF TESTIMONIALS.

Mrs. J. J. Evans, Stella, W. T.: Neuralgia of the stomach and heart, weak lungs and greatly emaciated; cured and gained ten pounds in two months.

Mrs. General Adams, Medical Lake, W. T. Numbness and congestion of the brain, produced by a diseased condition of delicate organs; also the headache and nervous dyspepsia of twenty years' standing. She was cured two years ago by Drs Darrin.

Miss Ida Rogue, Seattle, W. T. Female complaints and general debility. Cured.

Lillie Quental, Tacoma, W. T. Cross-eyes; cured in two operations. Deafness and catarrh also cured.

Mrs. Mevie Gobfort, Seattle, W. T.—Boy five years old, deaf since 16 months old. Discharging ears and catarrh entirely cured after several treatments.

Frederick Mobs, Sprague, W. T.—Catarrh entirely cured, also of dropsy and varicose veins and milk leg.

S. F. Hoskinson, Fort Blakely, W.T.—Sciatic rheumatism. Cured.

William Little, Seattle, W. T.: Pain in his chest of over eight years' standing. Entirely cured by electro-magnetic treatment.

Mrs. A. J. Quental, 1351 Railroad street, Tacoma, W. T.: Stoppage of tear duct, causing tears to overflow down the cheeks. Cured by one operation.

Mrs. M. E. Day, Port Madison, W. T.: Throat difficulty cured.

D. C. Widden, Seattle, W. T.: Deafness. Hearing restored.

John M. Romeyer, Palace restaurant, Seattle, W. T.: Sciatic rheumatism. Cured by the electro-magnetic system.

Evans Harmon, Lowell, Snohomish county, W. T.: Cured of deafness.

OFFICE HOURS AND PLACE OF BUSINESS.

The Drs. Darrin are located at the International Hotel, Cherry street, Seattle, W. T. Consultation free.

Office hours, from 10 to 4 daily; evenings 7 to 8; Sundays 10 to 12. All curable chronic diseases, blood taints, taints, stricture, catarrh and deafness are confidentially and successfully treated. Circulars sent free. Most cases can receive home treatment after a visit to the doctors' office.

(The Drs Darrin also have a branch office at 235 Fifth street, Portland, Or., where any in that vicinity can consult them.)

An Ugly Row.

A fracas occurred at a saloon on Government street this morning, which might have had a more serious ending. A dispute having arisen between two well known individuals—one a professional gambler who has figured in the police court on several occasions, and the other a night watchman—the latter struck the former in the face, when the gambler retaliated, and report says pulled a pocket knife to stab his adversary. This part of the story, however, is denied by the participants, who say that no knife was used. Neither of the combatants were badly hurt. The row originated over the gambling table, and reveals anything but a satisfactory state of affairs in this choral city of Victoria. We call Chief Bloomfield's attention to this case, and having done so have no doubt it will be investigated in the police court.

A CONFIDENCE OPERATOR.

A So-Called Circus Agent Fails to Secure Victims.

On Tuesday a young man giving the name of H. L. Vanderbilt, and describing himself as the contracting agent for an immense circus which would exhibit in Victoria between the 23rd and 27th, introduced himself to the newspaper men of the city. He related a big story about the size of the show, which was represented to have 30 elephants and 200 people, and said it was the intention of the proprietors to sail from Victoria for Australia on the steamship Nicaragua early in August. He was a little, dapper dude, closely shaven, with a light summer suit and white hat, and generally had the appearance of a lemonade-vender at a circus performance rather than the dignified bearing of an *avant coureur* of "the biggest aggregation on earth." Inquiry at several places of business revealed the fact that he had made contracts for supplies, and afterwards asked for a percentage on the amount of the order, or a loan of fifty dollars. The same game had been played in many American cities, and in at least one instance the operator was locked up at San Jose, Cal. The so-called agent spent several days arranging for the show ground and interviewed a number of property owners and real estate men for that purpose. His general demeanor, however, was suspicious, and about the time he began operating a TIMES detective went upon his trail and warning the business men he was attempting to swindle to be on their guard succeeded in blocking his little game. Finding that he was suspected, he left the city this morning, having purchased a new suit of clothes and leaving his old duds in the room of his hotel. As far as we have been able to learn he failed in his game and departed no richer than he came.

OUR TOWN MAJOR.

City Loans and Improvements—The Columbian Mad—Patti-Rosa.

"Good-day, Major," was the salutation from an old and respected citizen on government street yesterday. "It's all nonsense you talking about the city raising a million dollar loan; half of it would be stole; the people won't trust them with that many cents. It's on the *tapis* to borrow seventy-five thousand; that by-law won't pass, it's sure to be defeated. If the people want to raise money for civic improvement they should have different men to handle affairs. That seventy-five thousand will all dwindle away, as you say, same as the $150,000 raised some years ago for sewerage purposes. At the time that money was raised the sewers were going to be constructed at once, but as usual the people cooled down and the thing was forgotten till the recent break out of disease. The plans are at this moment lying moulding in the city hall offices. The improvements you mention are needed very much and have become a most urgent necessity to the city. If you want to know how civic affairs are carried on here enquire into the James Bay bridge transaction; that job, sir, speaks for itself. Yes, I know you've said a good deal about that handsome structure; however, it could be made to look better than it does at present. I scarcely believe they'll be able to get all the kinks, as you say, taken out in the 90 days, no, nor in one hundred and ninety. That undertaking could have been made an ornament to the city besides being a great convenience had things been managed differently. All improvements commenced here in this city of Victoria by the corporation have been thwarted by rings and cliques, because they hadn't some little finger in the pie, in many instances because it was not deep enough. Didn't they stop the completion of the reservoirs for fire and other purposes. Now, the fire brigade have to depend on what they call the water mains, but what I call stove-pipe mains. Were one of them to burst in case of fire, it is easy to tell what the consequences would be. Well, about politics. Oh, it's very easy to understand Victoria politics; the planks of the platforms and the standing principle is "boodle." You have all the instance you want in our late members; a session or two at Ottawa, then a snug berth with good salary and nothing to do—that's Victoria politics. Oh! they'll elect another, and yet another; they all act in the self same way. It's certainly a wonder they in Ottawa are not tired of them long ago. Were I Sir John, I'd tell them to go to grass before now. I see, Major, you're quite green in regard to political morality of this city of Victoria. You must understand and always keep it before your mind that it's "boodle," "boodle," and nothing but "boodle" throughout. That historic word ought to be engraven on the city coat-of-arms. The Tammany ring in New York was bad, Victoria rings are not much better. Good day, Major, keep at them; ou may yet succeed in reforming them, but you have a long and difficult road to travel." And he, this old and respected citizen, left us standing amazed! astounded! thunderstruck! by his revelations. The Major found himself gazing vacantly at the steam engine in the barber's shop window till called to a recollection that the Liverpool Irishman of the *Colonist* might have overheard the conversation, and repeat it ere the Major could have it in the TIMES, but then he thought they had neither the brains, pluck, or gumption to attempt anything of the sort—it's not in their line.

So the old fish wife of that *British Columbian* Billingsgate, situated on the banks of the Fraser, has taken umbrage anent some of the Major's vapourings, written to amuse, especially an allegorical story of a banquet which appeared in the issue of THE TIMES of the 21st inst. It seems that the cap fits a remote place called New Westminster, hitherto unknown to the Major. Wear it if it fits you, old girl. Your remarks belong solely to your sweet smelling class, and are beneath the notice of any one laying claim to decency, much less the Major's. And yet another! Mr. "Civi ian," so you're mad too are you? Oh! dear! You're the chicaleacy cove with yer von, two, three from the willage of Vitechapel, are you? Do you beleng to the claw hammer brigade or to the tag-rag and bob tail, du tell? or are you the downey cove with the blooming paper collar round yer squeeza, and the Brummagen watch chain badorning yer vaistcoat? You're both as dull as the ditch water in your dykes, as insiped and dry as your sawdust while the effluvium of decayed fish pervades —— Faugh! The Major is only too proud that his fame has reached into the uttermost parts of the earth, even beyond the pale of civiliz-tion, way up the banks of the roaring, ranting Fraser. It's said that fish diet adds brain power, but how can it where there is no braihs to add to. So the Major can't write allegorically like others, but he will, you'll see. Knowing nothing whatever about the Royal City of New Westminster, or any one connected therewith, about ten days ago the Major casually heard a story passed as a good joke to laugh at told, wherein a butcher became to hold a high municipal office. The name of the place was not mentioned nor yet that of the butcher. Well, this gentleman consented to give a party to the upper tendom; many of those invited failed to put in an appearance. The feast was prepared and as Paddy says, there was "lashings galore." At the time the Major was on the lookout for an inspiration, hence the effusion in which not a single hint is given except the word Sapperton, which must have been inserted by the "devil" for sheer devilment, as it is not in the original MSS. However, when all is said and done, a butcher is a butcher and a man of blood, and should not be ashamed of his calling; if you don't believe it smell of his boots. No one denies their calling, not even "the Major," who was only a full private in 64th Dragoons, turned out of the corps for sheep stealing. Still with all his little failings and misfortunes through life, the Major never condescends to handy words with such low people as those whom he rates as the fish wives and Cockney costermongers of the place designated the Royal City. The jackass next the barber's shop on Government street echoes the bray of those on the Mainland. He's nothing but an echo anyhow, even of the Major's ideas and opinions.

Patti Rosa's performance last evening at The Victoria was in keeping with that fair young artiste's well-deserved reputation. It's hard to play well to half-filled benches, and very discouraging; still this drawback did not appear to have any detrimental effect on the lively actress in the role of the romping girl. The play throughout was well deserving of better patronage, and it is hoped that this evening Mlle. Patti Rosa will be greeted by a full house, as it is her last appearance of her present engagement. The dancing, singing and costumes combine to add to the attractions of the company, and it is hoped the fair ladies will make it a point to be there with their young and their old of every degree. Go and have a good time and a good laugh, we did. THE TOWN MAJOR.

THE BUILDING SEASON.

Buildings Completed and in Progress—Value of the Erections for this Year—Prospects.

The building season may now be said to be under full sail. In every part of the city is to be seen heaps of brick, lumber and mortar. The indications are that before the year expires as many new buildings will be added to Victoria's residential and business properties as in any previous year, or corresponding period. When the Jubilee Hospital is under way, and including the palatial residence the Hon. Robert Dunsmuir is erecting at the head of Fort street, at a cost which will not leave a great surplus in a quarter of a million are he takes possession of it, the total value of the new structures, a competent authority assures THE TIMES will not fall far short of half a million dollars. This is a statement we are certain will surprise many of our citizens, for few are aware of the extent of the trade for the present season. A most gratifying fact is observable in connection with the buildings of this year. It is that they are all of a very substantial character and in many respects a decided improvement on the general run of buildings erected in past seasons. As the year advances operations are certain to increase. All this is most satisfactory, as it demonstrates beyond cavil the faith entertained by Victorians as well as by outsiders and investors in the stability and future permanence in Victoria's supremacy over all her rivals. Beautiful for situation, the joy of every truly loyal citizen, the Mecca to which tourists rush from the broiling sun of other less favored climes, she can well afford to abide her time for the period when she will be acknowledged as the empress queen city of the North Pacific. Quietly she keeps on in the even tenor of her way. Already she is the admired of all admirers for her unrivalled drives and her natural park. In this respect she is peerless. Her business men are known everywhere as the embodiment of all that is upright and honorable. Their credit is excellent. Such being the case it will be many a day ere Victoria can be supplanted as a wholesale centre. Socially and financially no other city west of the great lakes can approach her. Can it then be wondered at that her citizens have unbounded faith in her future greatness. Were anything necessary to prove this it is to be found in the new buildings in course of erection this season, to say nothing of those already finished since the year 1888 was ushered into existence. A TIMES representative to-day, from a few of the architects, learned the following particulars regarding the condition and prospect of the building trade in the city this season:

Mr. John Teague reports the following as his work since the opening of the building season: A three-story block for Messrs. A. & W. Wilson, Broad street, near the Driard at a cost of $7,000. A frame residence for Mrs. Camsusa at the junction of Fort and Yates street, $1,200; addition to St. Joseph's Hospital and alterations $25,000; store on Cormorant street for the Galpin estate $6,000; addition to the Oriental Hotel for Messrs. W. McKeon & Son, $12,000; cottage for Mr. Pendray on Pandora street, $2,500; store for Mr. Lettice on Fort street, $2,500; Convent for the Sisters of St. Ursula at Vancouver, $6,000. He has just completed plans for a residence for Mr. George Thompson, on Blanchard near Cormorant street. Another for Captain Bendroit, James Bay, near the church. In preparation are plans for a block on the corner of Yates and Broad street, next the Poodle Dog restaurant. Also, a residence for Mr. D. Ker on Blanchard street opposite Maplehurst. For a store on Government street for John Russell, on the site of the recent fire. In addition to the foregoing Mr. Teague has orders from several parties to prepare sketches of buildings and estimates. He considers prospects for the building trade as very favorable, and thinks the balance of the year will be a busy one.

Mr. E. Mallandaine, in addition to superintending the construction of the barracks at Macaulay's Point for C Battery, has on hand the erection of a residence for Dr Jackson, Young street, at a cost of $1,800; a house for Mr R J Plummer, Kingston street, at a cost of $1,600. He is at work on plans for several residences in various parts of the city.

In this hurriedly prepared sketch, we are indebted to the architects whose names are given as authority for the correctness of our figures. It will be observed that no reference is made to Mr. Pemberton's block on Fort street; the beautiful residence being erected by Mr. John Graham, on Menzies street, Mr. Shakespeare's residence in the north end of the city, nor the many other buildings erected throughout the city.

Messrs. Fisher & Wilson have the following on hand for this city: Mr. Henry Young's alterations in the White House, in the neighborhood of $15,000; W. G. Cameron's store, Johnson street, just completed, $6,000; the proposed block on Douglas street, extending from the Odd Fellows' hall to Johnson street, in the neighborhood of $20,000; a couple of stores for a Chinese firm on Pisguard street, $7,000; a block for a private citizen who does not wish his name made public at present, $12,000. For Mr. Geo. Byrnes, in Vancouver, plans are being prepared for an addition to his block on Carroll street, 105x88, two storeys, estimated cost, $15,000. For another citizen of Vancouver, who is about erecting a block on Hastings street, 50x120, three storeys high, at a cost of $15,000.

In Seattle they have on hand the erection of 45 buildings ranging from a $1,500 cottage to Mr. Coleman's block costing $250,000. In Port Townsend they have also a number of buildings in progress, as well as others contemplated. In Victoria a number of people are contemplating building in the fall, but as yet no instructions to prepare plans have been given by them.

Mr. T. C. Sorby is enlarging the residence of Dr. Powell. A large billiard room with bedrooms above has been added to the doctor's handsome residence. Also a carriage and other outhouses. The plans and drawings for the new offices for the Bank of British Columbia, at Vancouver, have been forwarded to England for approval. Commencement on the court buildings at Vancouver has been delayed pending the selection of the site by the Lands and Works Commissioner. The drawings for the new Roman Catholic church at Vancouver are being completed. In addition to the foregoing he has several works in progress, but nothing definite for public announcement.

Mr. L. Buttress Trimen has completed plans and specifications for a neat modern frame house for Mr. Cuton, to be erected in James Bay. A frame house with modern improvements for Miss McCandlish, in James Bay. The four storey brick and iron warehouse to be erected by Mr. E. G. Prior, on the corner of Government and Johnson streets. A new block on the site of the California saloon, Johnson street, for Mr. Lelare, consisting of two stores, with warehouse adjoining, and a brick store on Johnson street, adjoining Waddington alley. The add tion to the City Hall. A neat stand for the Band in Beacon Hill Park has just been completed by Mr. Trimen for the Corporation. At present he is at work on plans for a handsome residence to be erected by Capt. Snowden, on the Gorge. Mr. Trimen takes the outlook for building for the rest of the year favorable. He considers Victoria a lovely spot to live in. Once a system of drainage is adopted Victoria will be the most delightful city to live in on the northwest coast.

Mr. F. Bourchier, successor to Mr. S. C. Burris, who prepared the plans and specifications, has just completed a fine residence for Mr. C. F. Gardiner on Labouchere street at a cost of $5,700. Mr. Louis G. McQuade's elegant residence is approaching completion. The cost of this edifice will be in the neighborhood of $6,000. On Mr. Bourchier's books are orders for several buildings, but as they are subject to positive instructions, he preferred to say nothing at present about them. In addition to his architectural work Mr. Bourchier also handles real estate, which he reports as being in fair demand in choice localities in this city. Lately he has manipulated sales in Port Angeles and Whatcom all in Washington Territory.

SONGS OF OLD SCOTLAND.

THE CELEBRATED

Bairnsfather Family

Will appear at THE VICTORIA Theatre,

On 30th JUNE and 2nd JULY,

UNDER THE PATRONAGE OF THE

ST. ANDREW'S AND CALEDONIAN SOCIETY,

VICTORIA, B. C.

These Artists have the unbounded reputation of being the most artistic delineators of Scottish Song and Story that have ever visited America.

Dress Circle & Parquette, $1.

GALLERY, 50 CENTS.

Reserved Seats at T. N. Hibben & Co., without extra charge.

Mr. Bairnsfather has an excellent voice, and sang with feeling and power. Both as a singer and teller of Scotch stories it is hardly going too far to say he is fully equal to the famous Kentucky. Indeed, in some respects he is even superior. Etta Bairnsfather has a singularly pure and sweet soprano voice.—Toronto "Globe."

JOHN ROSS, Secretary.
